Summary

A short story. Sally remembers Nina's warning too late. "Don't use the Tome of Valdonir."

- A translation of « [N'utilise pas le Tome de Valdonir.](#) » by [MiaQc](#)

Sally, an 18-year-old woman with long brown hair and gray eyes, remembers too late the warning from Nina, the pretty blue-eyed blonde at college. "Don't use the Tome of Valdonir." Sally thought she'd realize her dream of being prettier and more popular at college by using this cursed book. Instead, she summoned a demon with two penises and tentacles. This monster, who says his name is Wolmar and he is a servant of the mysterious Valdonir, rapes poor Sally. The demon fills all the woman's holes and steals all her vital energy, ending Sally's life. When Nina finds her corpse, covered in semen, she sighs. "I warned you, Sally. You idiot." The blonde woman picks up the Tome of Valdonir and walks away.
